CANADA

Laguna Water Prep
PT861 PT863

Section I. Product and Company Identification	
Product name	Laguna Water Prep
CAS #	Mixture
Use	Pond water conditioner
Supplier	Rolf C. Hagen Inc., 20 500 Trans Canada Hwy, Baie d'Urfé, H9X 0A2
Emergency	Call your local poison control center

Section II. Hazards Identification	
WHMIS	Classification
	D-2B: Materials causing other toxic effects (Toxic)

Section III. Composition and Information on Ingredients			
Ingredients	Conc. (%)	CAS #	EC #
EDTA Tetrasodium Salt	1-5	64-02-8	200-573-9

Section IV. First Aid Measures	
Eye contact	Flush eyes with copious quantities of water holding lids apart to ensure flushing of the entire surface for at least 30 minutes. Seek immediate medical attention.
Skin contact	Wash exposed area with plenty of water and soap for at least 15 minutes.
Inhalation	If inhaled remove person to fresh air. Seek medical advice if breathing is difficult.
Ingestion	Seek immediate medical advice. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. Do not induce vomiting, unless directed by medical qualified personnel. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce risk of aspiration.

Section V. Fire Fighting Measures
Suitable extinguishing media
Use extinguishing media appropriate to surrounding fire conditions.
Specific hazards arising from the chemical
Water based product. Not considered to be a fire hazard. Thermal decomposition may release toxic and/ or hazardous gases including carbon oxides, nitrogen oxides, sulfur oxides and hydrogen sulfide. Closed container may rupture if exposed to excess heat or flame due to a built-up of internal pressure. Move containers away from fire area if it is safe to do so. Keep containers exposed to fire cool with water spray.
Special protective actions for fire-fighters
Wear adequate personal protection to prevent contact with material or its combustion products. Self-contained breathing apparatus with a full-face piece operated in a pressure demand or other positive

MATERIAL SAFETY DATA SHEET

pressure mode.

Section VI. Accidental Release Measures	
Person-related safety precautions	Wear protective gloves (neoprene or other impervious glove). Wear chemical goggles or full face piece respirator or breathing apparatus. Do not wear contact lenses.
Measures for environmental protection	Prevent entry into soil, drains, waterways or sewers.
Measures for cleaning/collecting	Isolate hazard area. Restrict access and ventilate. Contain and absorb spills or leak with suitable absorbent material. Place solid residue into drums or other appropriate containers for off-site disposal.

Section VII. Handling and Storage	
Handle in accordance with good industrial hygiene and safety practices. After handling and before eating, drinking or smoking, wash hands and face thoroughly with soap and water. Prevent accidental contact with incompatible chemicals. Store product in a closed container and in a dry and cool area between 0 and 35 °C. Store away from heat and incompatible materials.	

Section VIII. Exposure Controls and Personal Protection	
Protective clothing	Wear protective gloves (Neoprene or other impervious glove). Wear chemical goggles or full face piece respirator or breathing apparatus. Do not wear contact lenses.
Engineering controls	General ventilation is recommended.

Section IX. Physical and Chemical Properties	
Appearance (physical state, color, etc) / Odor	Blue liquid
Odor threshold	Data not available
pH	9.5-10
Melting point / Freezing point	-2 °C
Initial boiling point and boiling range	Data not available
Flash point	Data not available
Evaporation rate	Data not available
Flammability (solid, gas)	Data not available
Upper / Lower flammability	Data not available
Vapor pressure	Data not available
Vapor density	Data not available
Liquid density	Data not available
% Volatile	Data not available

Laguna Water Prep
PT861 PT863

Specific gravity	1.055-1.062
Solubility	Soluble in water
Coefficient of Water/Oil distribution	Data not available
Auto-ignition temperature	Data not available
Decomposition temperature	Data not available
Viscosity	Data not available

Section X. Stability and Reactivity	
Instability conditions	Stable under recommended storage conditions.
Conditions to avoid	Open flame and heat.
Materials to avoid	Avoid strong oxidizing agent, strong acids, strong bases and metals.
Hazardous decomposition products	Thermal decomposition may release toxic and/ or hazardous gases such as carbon oxides, nitrogen oxides, sulfur oxides and hydrogen sulfide.
Hazardous polymerization	No risk of dangerous polymerization.

Section XI. Toxicological Information	
Route of exposure	Conclusion / Remarks
Skin	May be irritating with prolonged contact. Symptom may include redness, itching and swelling.
Eye	May cause moderate to severe eye irritation. May cause eye burns, corneal injury.
Inhalation	Inhalation of mist may cause irritation of upper respiratory tract.
Ingestion	May cause irritation, burns and injury.
Mutagenicity	Not available
Carcinogenicity	This mixture contains a very small amount of the trisodium salt of nitriloacetic acid (trisodium NTS, CAS:005064-31-3) which is listed as a potential carcinogen. Components listed by IARC and NTP: Trisodium nitrilotriacetate. Although large dietary of NTA have caused urinary tumor in laboratory animals, there is little likelihood that NTA could cause cancer in humans, especially at subtoxic doses. The trisodium salt of EDTA did not cause cancer in laboratory animals.
Reproductive toxicity	EDTA and its sodium salts have been reported to cause birth defects in laboratory animals only at exaggerated doses that were toxic to the mother. Birth defects are unlikely. These effects are likely associated with zinc deficiency due to chelation. Exposures having no effect on the mother should have no effect on the fetus.

STOT-single exposure	Not available
STOT-repeated exposure	Not available
Aspiration hazard	Not available
Acute toxicity	Not available
Chronic Overexposure	Not available

Section XII. Ecological Information	
Ecotoxicity	EDTA Tetrasodium Salt (CAS 64-02-8) Freshwater Algae - Acute Toxicity Data 72Hr EC ₅₀ <i>Desmodesmus subspicatus</i> : 1.01 mg/L Freshwater Fish - Acute Toxicity Data 96Hr LC ₅₀ <i>Lepomis macrochirus</i> : 41 mg/L [static] 96Hr LC ₅₀ <i>Pimephales promelas</i> : 59.8 mg/L [static]
Mobility	Not available
Persistence and degradability	Not available
Bioaccumulation potential	Not available

Section XIII. Disposal Considerations	
Disposal recommendations	Dispose of in accordance with federal, provincial and local regulations.
Disposal of damaged packaging	If the container contains residue of a hazardous product, follow all MSDS and label precautions even after container is emptied.
Regulatory disposal information	Data not available

Section XIV. Transport Information	
T.D.G. Classification	Not applicable

Section XV. Regulatory Information	
Not available	

Section XVI. Other information	
While the company believes the data set forth herein are accurate as the date hereof, the company makes no warranty with respect thereto and expressly disclaims all liability for reliance thereon. Such data are offered solely for your consideration and verification.
